

TESTIMONIALS

ST. ALBANS CITY SCHOOLS, VT Playground Installation

“The playground is a huge hit as well as the surface. People love it! A teacher shared a story of a child who was falling from quite high up on the equipment and his parents could not get to him soon enough. When he hit the ground he bounced. The teacher said the look of fear was replaced with a huge smile.”

KIDOODLES, HOLDEN, MA Playground Installation

“We were looking for a ground cover that could withstand a lot of wear and was safe. We have been delighted with QuaBoing for our childcare center playground and would recommend this product to others!”
